

Likes to use
required
amount of
water

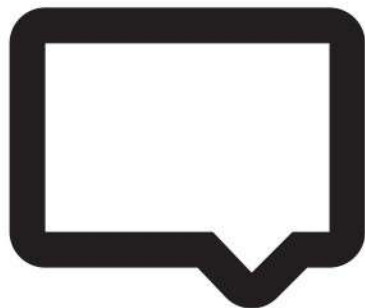

Monitoring
the plants

Enjoys building
the richness of
the soil

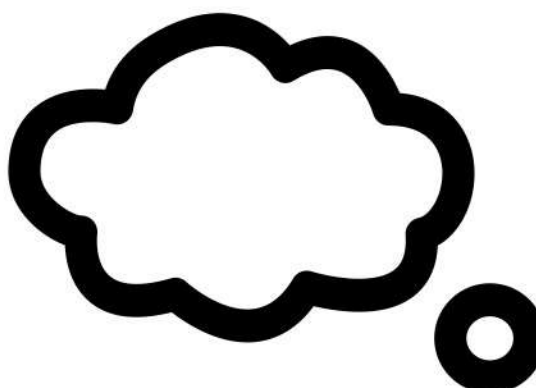

Do I get a more
yield?

Whether my
model predicts
accurately?

Chemical based
farming is not
good but what
choices do we
have?

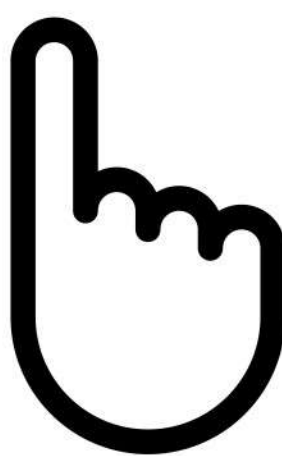

Says

Thinks

Does

Feels

Provides
facility
maintanence

To make
farmers
comfortable

My model
detects the
motion of
predators by
using sensor

Fulfilled by
daily work

Can control the
amount of
water supplied
to the field

The visible
process of his
healthy crops
